ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICIAL PUBLICATION OF THE

ECOLOGICAL SOCIETY OF AMERICA

CONTINUING THE PLANT WORLD

VOLUME 35, 1954

1670

PUBLISHED QUARTERLY AT DURHAM, N. C.

BY THE

ECOLOGICAL SOCIETY OF AMERICA

AND THE

DUKE UNIVERSITY PRESS

ECOLOGY

A QUARTERLY JOURNAL

DEVOTED TO ALL PHASES OF ECOLOGICAL BIOLOGY

Established 1920

Editors: W. D. Billings (Botany), Duke University.
Edward S. Deevey, Jr. (Zoölogy), Yale University.

Review Editor: LaMont C. Cole, Cornell University.

Business Manager: H. J. Oosting, Duke University.

Circulation Manager: Miss Exie Duncan, Duke University Press, Box 6697, College Station, Durham, N. C.

MEMBERS OF THE EDITORIAL BOARD:

1952-54

F. C. Evans, Department of Zoology, University of Michigan, Ann Arbor, Michigan.

Carl L. Hubbs, Scripps Institution of Oceanography, University of California, La Jolla, California.

Alton A. Lindsey, Department of Biological Sciences, Purdue University, Lafayette, Indiana.

John W. Marr, Institute of Arctic and Alpine Ecology, University of Colorado, Boulder, Colorado.

1953-55

Charles M. Bogert, Department of Amphibians and Reptiles, American Museum of Natural History, Central Park West at 79th St., New York 24, N. Y.

David Chandler, Department of Zoology, University of Michigan, Ann Arbor, Michigan.

Joseph H. Robertson, Department of Range Management, University of Nevada, Reno, Nevada.

Jacob Verduin, Franz Theodore Stone Institute of Hydrobiology, Put-in-Bay, Ohio.

1954-56

R. Daubenmire, Department of Botany, State College of Washington, Pullman, Washington.

R. W. Pennak, Department of Biology, University of Colorado, Boulder, Colorado.

J. P. Scott, Jackson Memorial Laboratory, Box 78, Bar Harbor, Maine.

Royal E. Shanks, Department of Botany, University of Tennessee, Knoxville, Tennessee.

Ex officio members: H. J. Oosting, Duke University, Durham, North Carolina, and W. J. Hamilton, Jr., Cornell University, Ithaca, N. Y. (the editors of Ecological Monographs).

Correspondence concerning editorial matters should be addressed to the appropriate Editor at the address given in the inside first cover. Books and papers for review should be sent to the Review Editor, Dr. LaMont C. Cole, Department of Zoology, Cornell University, Ithaca, N. Y.

Subscription price, $7.50 net a year for complete volumes (January-October); parts of volumes are to be had only at the single copy rate. Single copies, $2.00 post free. Back volumes, as available, $8.00 each.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of the next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the Ecological Society of America.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Miss Exie Duncan, Duke University Press, Box 6697, College Station, Durham, N. C. Correspondence regarding payment of dues in the Ecological Society should be addressed to the Treasurer, Fred H. Test, University of Michigan, Ann Arbor, Michigan.

Entered as second class matter at the Post Office at Lancaster, Pa. Application for re-entry at the Post Office at Durham, N. C., is pending.

TABLE OF CONTENTS, VOLUME 35, 1954

JACKSON, DANIEL F., AND JAMES MCFADDEN. Phytoplankton photosynthesis in Sanctuary Lake, Pymatuning Reservoir 1– 4

GODFREY, GILLIAN K. Tracing field voles (*Microtus agrestis*) with a Geiger-Müller counter 5– 10

HUSCH, BERTRAM. The regeneration of *Prunus serotina* in northwestern Pennsylvania following cutting 11– 17

DELACY, ALLAN C., AND THOMAS S. ENGLISH. Variations in beach seine samples caused by net length and repeated hauls 18– 20

SPURR, STEPHEN H. The forests of Itasca in the nineteenth century as related to fire 21– 25

BARNES, BETTY MARTIN, AND ROBERT D. BARNES. The ecology of the spiders of maritime drift lines 25– 35

MCDERMOTT, R. E. Effects of saturated soil on seedling growth of some bottomland hardwood species 36– 41

CHAPMAN, JOHN A. Studies on summit-frequenting insects in western Montana 41– 49

DODGE, HAROLD R., AND JOHN M. SEAGO. Sarcophagidae and other Diptera taken by trap and net on Georgia mountain summits in 1952 ..... 50– 59

GAINES, E. M., ROBERT S. CAMPBELL, AND J. J. BRASINGTON. Forage production on longleaf pine lands of southern Alabama 59– 62

BLAIS, J. R. The recurrence of spruce budworm infestations in the past century in the Lac Seul area of northwestern Ontario 62– 71

KUCERA, C. L. Some relationships of evaporation rate to vapor pressure deficit and low wind velocity 71– 75

MASSMAN, WILLIAM H. Marine fishes in fresh and brackish waters of Virginia rivers 75– 78

FREY, DAVID G. Evidence for the recent enlargement of the "bay" lakes of North Carolina .. 78– 88

WILDE, S. A. Reaction of soils: facts and fallacies 89– 92

MCMILLAN, CALVIN. Parallelisms between ecology and taxonomy 92– 94

BRINK, V. C. Survival of plants under flood in the lower Fraser River valley, British Columbia 94– 95

ODUM, HOWARD T., AND W. C. ALLEE. A note on the stable point of populations showing both intraspecific cooperation and disoperation 95– 97

GORHAM, EVILLE. An early view of the relation between plant distribution and environmental factors 97– 98

BERNER, LEWIS, AND WILLIAM C. SLOAN. The occurrence of a mayfly nymph in brackish water 98

HANSON, HERBERT C. Foreword, Frederic E. Clements Memorial Issue 107

POOL, RAYMOND J. Frederic Edward Clements 109–112

POUND, ROSCOE. Frederic E. Clements as I knew him 112–113

PHILLIPS, JOHN. A tribute to Frederic E. Clements and his concepts in ecology 114–115

YOUNG, VERNON A. The Frederic E. Clements Memorial 116

WEAVER, J. E., AND W. E. BRUNER. Nature and place of transition from true prairie to mixed prairie 117–126

SHELFORD, V. E. Some lower Mississippi valley flood plain biotic communities; their age and elevation 126–142

SHANTZ, H. L. The place of grasslands in the earth's cover of vegetation 143–145

CHANEY, RALPH W. A new pine from the Cretaceous of Minnesota and its paleoecological significance 145–151

KENDEIGH, S. CHARLES. History and evaluation of various concepts of plant and animal communities in North America 152–171

SWANK, WENDELL G., AND GEORGE A. PETRIDES. Establishment and food habits of the nutria in Texas 172–176

RICE, ELROY L., AND WM. T. PENFOUND. Plant succession and yield of living material in a plowed prairie in central Oklahoma 176–180
BARTHOLOMEW, GEORGE A., JR., AND WILLIAM R. DAWSON, Body temperature and water requirements in the mourning dove, *Zenaidura macroura marginella* 181–187
PENDLETON, ROBERT C., AND ALBERT W. GRUNDMANN. Use of P^{32} in tracing some insect-plant relationships of the thistle, *Cirsium undulatum* 187–191
KETCHUM, BOSTWICK H. Relation between circulation and planktonic populations in estuaries 191-200
KELTING, RALPH W. Effects of moderate grazing on the composition and plant production of a native tall-grass prairie in central Oklahoma 200–207
PARK, ORLANDO, AND STANLEY AUERBACH. Further study of the tree-hole complex with emphasis on quantitative aspects of the fauna 208–222
MOORE, P. G. Spacing in plant populations 222–227
CHITTY, DENNIS. Tuberculosis among wild voles: with a discussion of other pathological conditions among certain animals and birds 227-237
SHANKS, ROYAL E. Plotless sampling trials in Appalachian forest types 237-244
FLANDERS, STANLEY E. Fecundity of entomophagous insects under mass culture, an effect of environmental resistance 245–249
STRECKER, ROBERT L. Regulatory mechanisms in house-mouse populations: the effect of limited food supply on an unconfined population 249–253
FUJITA, HIROSHI. An interpretation of the changes in type of the population density effect upon the oviposition rate 253–257
Symposium: the ecology of serpentine soils 258–288
WHITTAKER, R. H. Introduction 258–259
WALKER, RICHARD B. Factors affecting plant growth on serpentine soils 259–266
KRUCKEBERG, ARTHUR R. Plant species in relation to serpentine soils 267–274
WHITTAKER, R. H. The vegetational response to serpentine soils 275–288
DEXTER, RALPH W., AND EDWARD C. KINNEY. A record of the earthworm, *Sparganophilus eiseni*, from the basin of western Lake Erie 289
SMALL, JOHN A. *Carex kobomugi* at Island Beach, New Jersey 289–291
FLANDERS, STANLEY E. Simplified method for the study of interacting host-parasite populations 292–293
CANNON, W. A. A note on the grouping of lateral roots 293–295
PENN, GEORGE HENRY. Introductions of American crawfishes into foreign lands 296
WRIGHT, JOHN C. The hydrobiology of Atwood Lake, a flood-control reservoir 305-316
MERKLE, JOHN. An analysis of the spruce-fir community on the Kaibab Plateau, Arizona .. 316–322
MARSHALL, NELSON. Factors controlling the distribution of oysters in a neutral estuary ... 322–327
GRAYSON, JOHN F. Evidence of four pine species from fossil pollen in Michigan 327–331
ORR, HOWARD D. Quantitative studies of protozoan populations from two areas of Pymatuning Lake, Pennsylvania 332–334
ANTHONY, MARGERY. Ecology of the Opuntiae in the Big Bend region of Texas 334–347
GERLOFF, GERALD C., AND FOLKE SKOOG. Cell contents of nitrogen and phosphorus as a measure of their availability for growth of *Microcystis aeruginosa* 348-353
SHANKS, ROYAL E. Climates of the Great Smoky Mountains 354-361
BREDER, C. M., JR. Equations descriptive of fish schools and other animal aggregations 361–370
BEADLE, N. C. W. Soil phosphate and the delimitation of plant communities in eastern Australia 370–375
MCCARLEY, W. H. The ecological distribution of the *Peromyscus leucopus* species group in eastern Texas 375–379
ELLISON, LINCOLN, AND J. E. COALDRAKE. Soil mantle movement in relation to forest clearing in southeastern Queensland 380-388

WOHLSCHLAG, DONALD E. Mortality rates of whitefish in an arctic lake 388–396
KITTREDGE, JOSEPH. The influence of shade and litter of pine on evaporation from a clay loam soil at Berkeley, California 397–405
FRASER, DONALD A. Ecological studies of forest trees at Chalk River, Ontario, Canada. I. Tree species in relation to soil moisture sites 406–414
GRAHAM, BEN F., JR. A technique for introducing radioactive isotopes into tree stems 415
GRUBER, JACOB W. Hexicology: a note for the history of ecology 415–417
GILTZ, M. L., AND W. C. MYSER. A preliminary report on an experiment to prevent cattail die-off 418
FINDLEY, JAMES S. Competition as a possible limiting factor in the distribution of *Microtus* 418–420
LOWE, CHARLES H., JR. Normal field movements and growth rates of marked regal horned lizards (*Phrynosoma solare*) 420–421
BROWN, W. L., JR. Collembola feeding upon nematodes 421
LANDERS, WARREN S. Notes on the predation of the hard clam, *Venus mercenaria,* by the mud crab, *Neopanope texana* 422
WHITMAN, WARREN C., AND EINAR I. SIGGEIRSSON. Comparison of line interception and point contact methods in the analysis of mixed grass range vegetation 431–436
BEER, JAMES R., PAUL LUKENS, AND DAVID OLSON. Small mammal populations on the islands of Basswood Lake, Minnesota 437-445
CLARK, PHILIP J., AND FRANCIS C. EVANS. Distance to nearest neighbor as a measure of spatial relationships in populations 445–453
HOBBS, G. A., AND C. E. LILLY. Ecology of species of *Megachile* Latreille in the mixed prairie region of southern Alberta with special reference to pollination of alfalfa 453–462
POTZER, J. E., AND B. C. THARP. Pollen study of two bogs in Texas 462–466
BARTHOLOMEW, GEORGE A., JR., AND WILLIAM R. DAWSON. Temperature regulation in young pelicans, herons, and gulls 466–472
WOODIN, HOWARD E., AND ALTON A. LINDSEY. Juniper-pinyon east of the continental divide as analyzed by the line-strip method 473-489
GERKING, SHELBY D. The food turnover of a bluegill population 490–498
DUNCAN, DONALD P. A study of some of the factors affecting the natural regeneration of tamarack (*Larix laricina*) in Minnesota 498-521
RYTHER, JOHN H. Inhibitory effects of phytoplankton upon the feeding of *Daphnia magna* with reference to growth, reproduction, and survival 522–533
WHITFORD, PHILIP B., AND PETER J. SALAMUN. An upland forest survey of the Milwaukee area 533–540
CURRY, LA VERNE L. Notes on the ecology of themidge fauna (Diptera: Tendipedidae) of Hunt Creek, Montmorency County, Michigan 541–550
VERDUIN, JACOB. Phytoplankton and turbidity in western Lake Erie 550–561
KELLY, C. F., T. E. BOND, AND HUBERT HEITMAN, JR. The role of thermal radiation in animal ecology 562–569
TAYOR, B. W. An example of long distance dispersal 569–572
WILLIAMS, AUSTIN B. An explanation for the distribution of a North American crayfish ... 573–575
DANSEREAU, PIERRE. Climax vegetation and the regional shift of controls 575–579
HENSON, E. B. *Pontoporeia affinis* var. *brevicornis* in Cayuga Lake, N. Y. 579
COSTIN, A. B. Observations on fish mortality and river pollution 580
NEILL, WILFRED T., AND E. ROSS ALLEN. Algae on turtles: some additional considerations 581–584
WELLS, B. W., AND S. G. BOYCE. Carolina bay lakes: the bog margin problem 584
Reviews 99–104, 297–304, 423–428, 585–591
